Each row in this puzzle has two answers, to be entered in the grid one after the other in the order of their clues. The eight “cascades” contain one or more answers zigzagging their way down the grid, following the shaded and unshaded paths. Clues in each cascade are presented in order, but which clue or set of clues goes with which cascade is for you to figure out.

ROWS

- 1 Cuddly-looking bear
Home for bats, often
- 2 Mechanical repetition, as a way of learning
